The next feature to roll in is 15 Free Spins where all high symbols act as scatters multiplying your win by total bet. And last, but not least is the Surf's Up skill-stop bonus.

Surf's up! BIG BREAK, the latest 5 reel, 15 pay-line video slot (available at Platinum Play Casino) has the strong pull of the beach and the magic wave of wins that gives this fun new game its title. Playing this one is as exciting as catching a thrilling ride on a monster breaker in Hawaii...and there's the possibility of scooping up rewards as high as 75 000.00 on the way in! With three ways to win - Lucky Break, Big Break and Munky Wax - the game is full of free spins with more spins within, multipliers and bonuses, all wrapped in a comical surfing apes theme carried by vivid and colorful graphics depicting a tropical paradise surfing spot. Lucky Break is found only on the 5th reel and has a powerful substitution role that pays Right to Left and enables the player to build winner combinations in which payouts are doubled. Big Break can substitute for any of the characterful monkey surfoids to deliver winning lines, whilst 3, 4 or 5 Munky Wax symbols activates a generous 15 free spins within which all character symbols act as Scatters and further spins can be awarded. The amusing second screen bonus feature is triggered when those mischievous monkeys appear across the five reels, opening up a further beach scene where the player is invited to grab a board and ride the tide, using skill-stop interactivity to select the biggest multiplier reward - do this right and multipliers up to a significant 50x are achievable. Players are likely to go bananas over this entertaining and multi-faceted slot, available at Platinum Play Casino now!
